Did You Make More Money in 2019 Compared to 2018?

You can earn more in 2020 with Hawthorn

Each new year is a time for reflection. We pause to consider our results from the prior year, and we make plans for the year ahead. Most medical practices take time to ask questions about their financial performance:

- **Did I make more money this year than I made last year?**
- **Why does it seem like I'm working harder and earning less?**
- **Why can't my billing partner explain why my collections are down?**

It's true. As the practice of medicine becomes more complex, many physicians are reporting declining revenue. They are working harder and making less money, and they don't know why.

At Hawthorn, we go to battle for our physicians every day. We have a proven record of success, and we deliver more dollars to the bottom line.

Our physicians are earning more and thriving

That's why we ask:

- **Did you earn more dollars in 2019 than you did in 2018?**
- **Do you expect to increase your earnings in 2020?**

You deserve better results. You deserve a billing partner that will work as hard as you do. You deserve the Hawthorn Advantage.

Hawthorn offers comprehensive revenue cycle management for medical practices, and we'll fight for your revenue at every step of the process.

We have over 40 years' experience with medical billing and collections. We'll collect the fees you deserve, convert your services to cash and increase your annual income.

Tired of the same results year after year? You deserve more. You deserve the Hawthorn Advantage.

No other revenue-cycle management partner can match our commitment to increasing your net collections, and we'll put our results up against any other firm.

You can thrive and prosper with Hawthorn

If you're tired of the same results year after year, consider fighting back with Hawthorn as your preferred revenue cycle management partner.
